Commander Cody - Phase II

Model **Douglas Danco** , Photo by **Douglas Danco**

Description: Commander Cody - Phase II

Prefix: CC

Detachment: Clone Trooper Detachment

Context: Episode III: Revenge of the Sith

As a senior level veteran, Cody commands the 212th Battalion and is among the highest ranking Commanders within the Grand Army of the Republic. Cody strictly follows each and every order given, but is renowned for having an independent nature, sarcastic good-humor, and loyalty to fellow troopers.

The 501st approval requirements are listed in black.

In the page below, items listed in blue are recommended features that will improve the quality of the costume. Items listed in red are intended to further enhance the finished costume.

For 501st membership only the requirements in black need to be met.

IMPORTANT: The "Animated" armor design, seen in The Clone Wars CG Series, differs from the "Realistic" armor design used to create characters from the theatrical films and graphic novels.

See [this thread at clonetroopers.net](#) for the differences between the sculpts.

This Visual Guide has been reviewed by the detachment staff and the LMO team and is certified for use as a minimum approval guideline for GMLs. GMLs are free to approve this costume type.

- Any uncertainties or questionable aspects of the submitted costume should be brought to the appropriate DL/GML peer review section of the legion forum.

Required Costume Components

The following costume components are present and appear as described below.

Helmet

For 501st approval:

- Phase II Helmet.
 - ◆ Some "name brand" helmets may be unacceptable.
- Armor is painted matte or satin white.
- Visor mounted over the eye lens is painted Tropical Orange or equivalent.
- Top of visor has white pinstripe markings.
- Black eye lens.
- Two mohawks on dome.
 - ◆ One located on each side of the center helmet fin.
- Mohawks are painted a tan "mustard yellow" color or equivalent.
- A "camera" is mounted to top left part of the dome.
- Helmet frown is charcoal grey in color.
 - ◆ Wire or plastic mesh is utilized inside the helmet to cover the open pieces of the frown.
- Painted around the aerators is a Tropical Orange sunburst detail.
- Ear caps are painted dark grey.
- Vertical hash marks on each side of helmet cheeks are dark blue in color.
- Grey helmet band around back of dome.
- There are two antenna's mounted to the helmet.
 - ◆ One on each side.

Neck Seal

For 501st approval:

- Neck seal is black in color with vertical ribbing or being smooth in appearance.
- No logos or labels are visible.
 - ◆ If the seal is not incorporated as part of the undersuit, a balaclava or other similar covering is acceptable.

Under Suit

For 501st approval:

- Black non-textured material, either one-piece or two-piece construction with no visible zippers or logos.

Shoulder Armor
For 501st approval:

- Armor is painted matte Tropical orange or equivalent.
- Shoulders are tear drop in shape with all rounded edges.
- Shoulders have two channels in them.
- Left shoulder has white script markings and attached communicator.

For level two certification (if applicable):

- Shoulders are not be symmetrical.
 - ◆ The armor slightly curves back at the bottom of the shoulder.

Upper Arm Armor
For 501st approval:

- Armor is painted matte or satin white.
- The left upper arm has a light grey stripe that starts on the hard outside edge of the bicep and is approximately 1 ½" wide.
 - ◆ This stripe shows signs of wear which allows the white to show through the stripe.
- On the right upper arm, there is a golden brown strap holding a pen that is mounted to the back of the armor.
- Each upper arm has a dimple on the lower back area.
- The outside of the bicep has a hard line edge at the front that turns in.
- The inside of the upper arm is rounded.

For level two certification (if applicable):

- Armor is seamless.
- No visible traces of how the armor was assembled are shown.

Elbow Armor
For 501st approval:

- Armor is painted Tropical orange or equivalent.
- On each elbow, on the outside of the body near the connection point of the elbow strap, there are detail slots that look like an equal symbols.

- ◆ This inset is painted black.
- Elbow straps have a raised detail line at the top and bottom.

For level two certification (if applicable):

- Elbows are mirror images of each other with a notched area on the outside of the elbow above the detail marks.

Forearm Armor

For 501st approval:

- Armor is painted matte or satin white.
- Both left and right forearms are mirror images of each other.
- A light grey stripe starts on the outside edge and is approximately 1 ½" wide.
 - ◆ On the right arm it would cover over the compad.
 - ◆ This stripe shows signs of wear which allows the white to show through the stripe.
- The compad remains white.
 - ◆ This design is matched on the left forearm.

For level two certification (if applicable):

- Compad has detail antenna on its left side.
- Instead of a hard edge, the top of the forearm has a bone ridge.
- Armor is seamless.
 - ◆ No visible traces of how the armor was assembled are shown.

Hand Plates

For 501st approval:

- Armor is painted Tropical orange or equivalent.
- Hand plates are mirror images of each other.
- Hand plates have a top curving ridge that comes to a point over the index or middle finger, just past the main knuckle of the hand.

Gloves

For 501st approval:

- Black over the wrist gloves made of leather, nylon, or other low pile fabrics.
- Gloves cover any exposed skin.
- Gloves do not show any labels or logos when the armor is worn.

Chest Armor

For 501st approval:

- Armor is painted matte or satin white.
- There is a center stripe approximately 2" wide painted in Tropical orange or equivalent.
 - ◆ This stripe starts at the bottom of the chest armor and extends to approximately the sternum area of the armor.

- ◆ These stripes show signs of wear that allows the white to show through the stripe.
- On either side of the center stripe there are two smaller stripes, approximately 1 1/2" wide, painted in Tropical orange which are at opposite angles to each other.
 - ◆ These stripes show signs of wear that allows the white to show through the stripe.
- Two detail slots on right breast painted in the Tropical orange or equivalent.
- There are three "scratches" in the top left section of the armor.
 - ◆ These are painted a dark color.
 - ◆ The middle of these scratches is the longest, extending to just past the middle of the armor.
- There is an ID badge that is mounted to the top left of the chest, just underneath the three scratches.
 - ◆ The main part of the badge is painted in a matte or satin white.
- This badge shall have (4) buttons.
 - ◆ The one closest to the center of the chest is a dark purple.
 - ◆ The next one is Tropical Orange or equivalent.
 - ◆ The last two are a light blue color.
- The bottom of the badge is a light grey color.
- Chest and Back armor match together at the sides with no open gap.
 - ◆ A seam line is present.
- Shoulder straps are slotted into the top connection points.

Back Armor
For 501st approval:

- Armor is painted matte or satin white.
- Rear armor box has a detailed area that contains (4) circles.
- Under the circles, at the left side of the back, there are two parallel lines.
 - ◆ On the right side is a squared detail.
- Back and Chest armor match together at the sides with no open gap.
 - ◆ A seam line is present.
- Shoulder straps are slotted into the top connection points.

Jetpack
For 501st approval:

- Jetpack is painted matte or satin white.
- The center thruster section is painted a golden brown color.
- The area just above the thruster is painted light grey.
- Jetpack measurements are approximately 15 3/4" Long and 8 1/2" wide.

Abdomen Armor
For 501st approval:

- Armor is painted light grey.
- Four 1/4" diameter holes per side on indents of abdomen.
 - ◆ Eight holes total.

- Abdomen armor wraps around the body and is sealed at the sides or back.
- Abdomen armor is completely contained under the Chest and Back armor.

For level two certification (if applicable):

- Armor is seamless at the sides and closed in the back.
 - ◆ A detail plate covers the seam line and hides all work.

Codpiece and Posterior Armor

For 501st approval:

- Armor is painted matte or satin white.
- There is a stripe, approximately 2" wide, painted in Tropical orange or equivalent.
 - ◆ This stripe lines up with the center stripe in the chest armor.
 - ◆ Stripe shows signs of wear which allows the white to show through the stripe.
- Stripe extends to approximately the center of the Codpiece.
- Codpiece and Posterior armor connect at the hips.

For level two certification (if applicable):

- Hips are connected via a snap with the correct detailed shape of the armor at the connection point.

Belt

For 501st approval:

- Armor is painted light grey.
- (8) boxes total, on each side of abdomen and attached to the belt.
- The belt boxes to the left side of center are painted Tropical orange or equivalent.
- The belt boxes to the right side of center are painted light grey.
- The two boxes near the back of the belt are painted golden brown.
- Detonator is centered on the back of belt.
- Detonator end caps are painted light yellow.

For level two certification (if applicable):

- Belt Boxes are notched and fitted flush with the details of the belt.
- Left rear belt box has two square buttons in the top left corner and an equal symbol detail at the bottom right.
- Right rear belt box has a bar with two small cylinders centered with an equal symbol detail on the bottom left.
- From the rear two belt boxes, the belt has a ribbed detailed appearance.

Thigh Armor

For 501st approval:

- Armor is painted matte or satin white.
- On the left thigh armor there is a stripe painted in Tropical orange or equivalent.
 - ◆ This stripe shows signs of wear which allows the white to show through the stripe.
 - ◆ This stripe starts on the inside section of the armor and travels diagonally to the top left of the armor, stopping before it reaches the edge.
- Front of thigh armor has a flat triangular area near the knee.

- From the top of the triangle a ridge line travels up the front of the thigh to the top edge.
- Rear of the thigh has an indentation.

For level two certification (if applicable):

- Outside of lower portion of the thighs come to a point and inner lower end is rounded.
- Grey leg strap is made of leather.
- Leg pouch has the correct shape and may be functional.
- Armor is seamless.
 - ◆ No visible traces of how the armor was assembled are shown.

Knee Armor
For 501st approval:

- Armor is painted Tropical orange or equivalent.
- Knees wrap around the front of the leg.
- From top center a raised detail line is present.
- Knees are strapped to the leg via a Tropical orange or equivalent strap with a raised center area painted in a light grey that wraps around the leg and connects on both sides of the Knee.

For level two certification (if applicable):

- Connection between the knee and the strapping has a detail clip.

Lower Leg Armor
For 501st approval:

- Armor is painted matte or satin white.
- Lower Legs are mirror images of each other.
- The front of the armor has a triangular detail at the top of the leg and a hard ridge line down the front of the shin.
- Back of the lower legs have an indentation just under the calf that extends down to the ankle.
- Calf can have an access area on the inside of the leg.
 - ◆ The outside of the calf is closed.

For level two certification (if applicable):

- Armor is seamless with a trap door access through the indent in the rear of the lower leg.

Boots
For 501st approval:

- White, ankle high or tall enough to cover the ankle and eliminate any black undersuit visible at the ankle.
- Boots are lace-less.
- The boots have armor detail to include a natural seam at the toe and a strap that goes over the top of the foot with two protruding disks at each side of the strap.
- There are no markings or labels from the shoe makers.
- Boot soles are flat.
- Boot soles are colored primer grey.

Optional Accessories

Items below are optional costume accessories. These items are not required for approval, but if present appear as described below.

DC-15S Blaster
For 501st approval:

Manufactured by BlasTech Industries the DC-15S is smaller in scale than the DC-15A blaster rifle. Although it has a shorter range than that of the "A" model, it is easier to handle with a higher rate of fire. It features a folding stock for braced firing.

- Realistic Clone Style DC-15S Blaster.
- Blaster may be scratch built out of plastic, wood, metal or cast in resin.
- Blaster has realistic Episode II or Episode III details:
 - ◆ Wire frame sight.
 - ◆ Folding stock.
 - ◆ (12) radiator fins evenly spaced along the length of barrel.
 - ◆ Igniter detail knobs.
 - ◆ Charge magazine clip on right side.
- Total length is approximately 26" (66 cm).
- Because of the scale, the Hasbro version is incorrect.

For level two certification (if applicable):

- Charge magazine detail on clip is metal to gun metal grey in color.
- Detail bolts and screws are metal to gun metal grey in color.
- Igniter knobs have some copper coloring.
- Blaster is weathered.

For level three certification (if applicable):

- Functioning Blue LED is installed in barrel.

DC-15A Blaster Rifle
For 501st approval:

Manufactured by BlasTech Industries, the DC-15A is a tibanna gas, cartridge powered weapon. Hyper-ionized blue plasma bolts are more than capable of penetrating armored units. Exceptionally effective against both droids and contemporary targets.

- Realistic Clone Style DC-15A Blaster Rifle.
- Blaster rifle is scratch built out of plastic, wood, metal or cast in resin.
- Blaster has realistic Episode II or Episode III details:
 - ◆ Flip up sight in down position.
 - ◆ (10) radiator fins evenly spaced along the length of barrel.
 - ◆ Power setting adjuster detail lever.
 - ◆ Sniper Scope attached under rifle in storage position.
 - ◆ Charge magazine clip on left side.
 - ◆ Igniter detail knobs.
- Total length is approximately 55 inches (139.7 cm).
- Because of the scale, the Hasbro version is not allowed.

For level two certification (if applicable):

- Charge magazine detail on clip is metal to gun metal grey in color.
- Detail bolts and screws are metal to gun metal grey in color.
- Igniter has some copper coloring.
- Power setting adjuster detail lever is metal or gun metal grey.
- Sniper scope is metal or gun metal grey.
- Blaster is weathered.

For level three certification (if applicable):

- Functioning Blue LED is installed in barrel.

Emperor Palpatine Holodisk Communicator
For 501st approval:

A disc-shaped device which allows the transmission and recording of holographic communications.

- Realistic Style Episode III Clone Holodisk Communicator with blue translucent Emperor Palpatine.
- Communicator has a black base with metallic top cover detail.
- Communicator is disc shaped with a smaller diameter flat disc centered on top.
- Three triangle pointer details evenly spaced along top outside edge that point to center.

For level two certification (if applicable):

- Blue translucent Emperor Palpatine is illuminated from under it's base.
